

AQR DATA RULE

BAD SURVEY, BAD DATA

LEADING QUESTION.

Don't you think our new policy is working great?

- ☐ Yes, definitely!
- ☐ Yes, somewhat
- ☐ Not really
- ☐ I'm not sure

BIASED SAMPLE.

We asked 27 people in our study lounge. Therefore, everyone thinks the same.

A survey is only as good as the questions it asks.

Leading question.

Biased sample.

Confusing choices.

Weak evidence.

CONFUSING CHOICES.

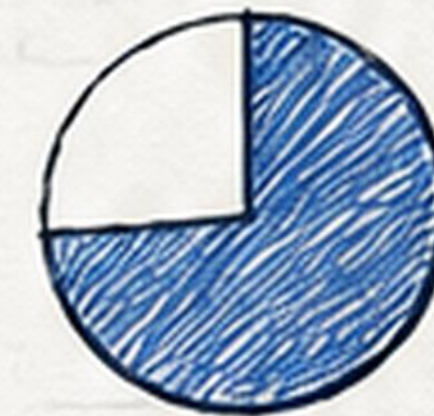

Which best describes your level of agreement with the statement?

- ☐ Strongly agree
- ☐ Agree
- ☐ Somewhat agree
- ☐ Agree somewhat
- ☐ Disagree
- ☐ Strongly disagree
- ☐ Neither agree nor disagree
- ☐ Don't know / N/A

WEAK EVIDENCE.

After a few skewed responses, we drew a big conclusion.

15 out of 20 said yes.

75%
LOVE IT!

CASE CLOSED.

If the question is bad,
the data will be bad too.

FINAL REPORT

**EVERYONE
LOVES IT!**
